CHAPTER 2: NUMBERS

NUMBERS

> ## NUMBERS UP TO 10

The digits 0, 1, 2, 3, 4, 5, 6, 7, 8 and 9 are used to form numbers or numerals.

The numbers 1, 2, 3, ... used to count things are called counting numbers.

1 2 3 4 5

6 7 8 9 0

Does not have any value on its own, but acts as a place holder.

(1)

One, two, three .. are called number names 0 1, 2, 3,.....

1 is the smallest and 9 is the greatest one-digit counting numbers. All one digit numbers have only the ones place.

10 is the smallest two digit counting number, written using the digits 0 and 1. Two - digit numbers have two places -The ones place and the tens place.

Every number (except 0) is 1 more than its previous number and 1 less than its next number.

Example: How Many Umbrella are in this Picture:
